

Although Fabricast places considerable emphasis on its line of standard slip rings, there have always been and will continue to be many applications which require custom slip ring assemblies.

Since Fabricast was founded in 1960, a portion of our business has always been the design and manufacture of high quality custom slip ring assemblies. The pictures on this page give an idea of some of the custom slip rings we manufacture.

Please contact Fabricast with any custom slip ring application. Because many custom slip rings are designed around standard tooling you will find our cost and delivery extremely competitive. We can be contacted by phone, fax, E-mail or by using either of the two forms included in the website (**Request For More Information Form or Slip Ring Specification Form**).
